### **Editing and Sharing your commute**

- 1. When you click on 'Edit this Commute' (#3 on previous pg), you'll be taken to this screen where you can customize your profile.
  - a. You can decide times of day and days of the week you typically commute
  - b. You can express interest in a carpool
- 2. Under Additional Options you can decide if you want your profile to be public- this will not share your address, only your neighborhood/time of commute/ and destination neighborhood.
  - a. You'll choose between sharing with anyone in iRideshare, only people within a network (such as just City of SLO employees) or no one.
  - b. You can also specify what gender you prefer to commute with if that is of concern to you
  - c. Making your profile visible means others can find you in a carpool match and get in touch via email.
